## WHO WE ARE?

The Coalition of Wisconsin Aging & Health Groups is a nonprofit, nonpartisan, statewide membership organization that was founded in 1977. The Elder Financial Empowerment Project is here to assist victims of financial exploitation, fraud and scams regain control of their lives and recover.

We provide services statewide.

We are not a government agency but rather a non-profit that exists to help people achieve their objectives, not ours.

## WHAT WE DO?

### VICTIM SERVICES

We provide direct services to adults 60+ years old who have been defrauded, scammed or exploited. We assist victims in putting a stop to abuse, victim court advocacy and in recovery.

### PRESENTATIONS

We give presentations to groups, either in person or via Zoom, to alert those who serve adults later in life of the red flags of financial exploitation and abuse.
